SAVING MONEY

Why do banks exist?

People often borrow money to help people and places in need.

to help the environment.

to help people get along.

to help people communicate.

to help people understand what's going on.

to help support all kinds of people's choices.

to help people get along.

We do not have to stretch more money than we can afford.

Remember, the best way to make a difference is by sharing money in a helpful way.

By using some of our extra money in a smart way, we can help make the world a better place.
