Avoid the Summer Slide

The school year is coming to an end and that means more fun, but fewer books. A total educational unplug over the summer can cause students to lose some of the information that was learned that year, but engaging in a little bit of learning can help accelerate learning when kids dive back into school in the fall! Learning over the summer? That sounds boring, but it doesn't have to be. World Book is brimming with interactive games, hands-on activities, and captivating titles to help kids have the time of their lives this summer all while learning.
